WisConfluence is unique in its focus on highlighting the knowledge and skills of local and extended *community members*! This gathering is about empowering ourselves to *embody* our inherent power, and BE powerful changemakers in our own communities - whether in bold, visible ways or quietly behind the scenes.

Together we will create a welcoming space for Courageous Conversations and community-led Knowledge-Shares that will explore transformational wisdom and tools for living a more beautiful future *NOW*:

- ◆ SOCIOCRACY and EQUITY as vehicles for personal transformation, self-governance and honor-based interdependence
- ◆ the PRIVATE DOMAIN as a vehicle for freely living a heart-centered life
- ◆ how to heal destructive, polarizing, societal forces with the wisdom of SOCIAL THREEFOLDING
- ◆ SACRED COMMERCE: expanding the notion of currencies to include ones of *true value --* your energy, heart-based gifting, care, enjoyment, inspiration...
- ◆ more effectively ATTUNING WITH THE NATURE to inform our path forward
- ◆ joyful, creative expression through community SONG, DANCE, & PLAY at the beautiful Defiance Springs Lodge!
